PROFESSIONAL SUMMARY

As a seasoned Full Stack Developer specialized in the MERN Stack, I have built multiple AI chatbots in React in the past year. With two years of experience in education, I have honed my skills and developed a passion for innovative solutions. Now, I am eager to transition into a full-time development role, bringing my expertise and proven success record to your team. I excel in grasping new technologies, adapting to fast-paced, deadline-driven environments, and collaborating effectively with internal and external teams. With excellent communication, interpersonal, and leadership skills, I consistently deliver top-notch results.

TECHNICAL SKILLS

Web Design, Front & Back-End Design, System Admin, Linux, Javascript, React, CSS, NodeJs, MongoDB, MySQL, Heroku, AWS.

PROJECTS

RealEstate App

Github: <https://github.com/rpierr33/real-estate-typescript>

Deployed: <https://react-real-estate-1b202.web.app>

Summary: Real-estate website using Firebase & Reactjs

CareBnB App

Github: <https://github.com/rpierr33/careBnB>

Deployed: <https://incandescent-macaron-9d1595.netlify.app>

Summary: CareBNB is a hosting site for those looking to offer up their homes to independent living residents. Built using React

Retox App

Github: N/A

Deployed: <https://www.retox-music.com>

Summary: A leading music supervision agency based in London. Founded in 2003, the agency offers a wide range of services including creative searches, bespoke music, song licensing for TV, film, commercials, trailers, and games. Leveraging technologies such as GSAP, TailwindCSS, Node.js, React.js, MongoDB, Express.js, and Auth0, the platform enables seamless management of music assets and licenses, making it easier for clients to find and use the perfect music for their projects.

Tax AI App

Github: N/A

Deployed: <https://accountant.kaizenapps.com>

Summary: An AI-powered tax calculator that uses Bulma, Vue.js, and node technologies to simplify the process of tax filing for users. This tool offers a user-friendly interface, allowing users to input their financial data and get an accurate tax estimate in real-time. With advanced algorithms and machine learning capabilities, this AI ensures that users can easily and quickly calculate their taxes with maximum accuracy.

Relevant Work Experience:

Kaizen Apps

Technical Project Manager

2022 – Present

- Delivering full-stack development in; AI chatbots, web/mobile apps, and decentralized blockchain applications for US clients.
- Responsible for software design and supervision of offshore software development engineering DevOps teams via agile methodology.
